

MJL Enterprises LLC is now proud to offer the Expeditionary Shelter Anchoring Kit, EXSHEL, exclusively offered by MJL Enterprises

As more world conflicts arise, the use of expeditionary shelters has been increasing and placement on different terrain varies widely. To meet this challenge, MJL has designed a simple, man portable system that enables temporary structures to be anchored to almost any base material.

Features Include

LIGHTWEIGHT AND HIGHLY PORTABLE

- 1 kit supports 2 ea Drash S series or similar size shelters (total of 72 anchoring points)
- Designed to meet specifications of National Guard CERF-P Teams, FEMA Disaster Response and Deploying War-Fighters.
- price includes CONUS FOB shipping
- full restocking parts support from MJL Enterprises LLC
- Kit contained in 4 ea man portable Hardigg Rifle Cases, 62 lbs ea case
- Powered by HILTI

Whether you are placing your Alaskan Shelter, Base-X, DRASH or GP-Medium on concrete, cracked concrete, rock, or earth, this kit can ensure that with proper anchor installation, the shelter will withstand the winds and forces for which they are designed.

Entire Kit fits into 4 durable, man-portable cases for easy deployment
